1. Administering State Agency: Division of Oil, Gas and Mining 1594 West North Temple Suite 1210 PO Box 145801 Salt Lake City, Utah 84114-5801	2. State Application Identifier Numbers: (assigned by State Clearinghouse) 3. Approximate date project will start: Existing small mining operation, expanding to large mine.
4. Areawide clearinghouse(s) receiving State Action: Darrell Cook, Executive Director Mountainland Association of Governments 2545 North Canyon Road Provo, Utah 84604-5906	
5. Type of action: <input type="checkbox"/> Lease <input checked="" type="checkbox"/> Permit <input type="checkbox"/> License <input type="checkbox"/> Land Acquisition <input type="checkbox"/> Land Sale <input type="checkbox"/> Land Exchange <input type="checkbox"/> Other _____	
6. Title of proposed action: Valley Asphalt, Incorporated - Ekins East Project, M/049/032	
7. Description: During Operations: Topsoil will be salvaged prior to mining and stockpiled for reclamation. Overburden will then be removed with blasting and dozers and moved to a spoils area for later use as backfill material. The limestone will be drilled, blasted and transported to the processing plant area, where it will be crushed and screened for various products. Product will be trucked from the stockpiles to various job sites or conveyed to the asphalt plant where it will be injected with asphalt oil and mixed with aggregate to produce asphaltic concrete and then loaded on trucks and hauled to various job sites. A sediment pond will be used to control runoff from disturbed areas. Public safety will be insured by restricting access with fencing and signs. Trash and debris will be periodically hauled to a landfill. A total of 121 disturbed acres is proposed over a 25 year mine life. After Operations: All mining and processing facilities will be demolished and removed. The disturbed area will be regraded and 12-18 inches of topsoil will be replaced. The final surface will be left in a roughened condition to promote vegetation establishment. The area will be seeded with species that were selected to achieve the post mining land uses of grazing and wildlife habitat. All areas will be revegetated with the exception of the final highwall area (about 8.7 acres) and the access road (3.7 acres) for which variances have been granted. The final highwall area will be fenced and warning signs installed to protect the public.	
8. Land affected (site location map required) (indicate county) SE/4 of Section 4, Township 10 South, Range 1 East, SLBM, Utah County, Utah. Project is located on privately owned land and minerals.	
9. Has the local government(s) been contacted? To be copied with this notice.	
10. Possible significant impacts likely to occur: None anticipated	
11. Name and phone number of district representative from your agency near project site, if applicable: N/A	
12. For further information, contact: Lynn Kunzler, Senior Reclamation Specialist Phone: (801) 538-5310	13. Signature and title of authorized officer: <div style="text-align: center;">  Permit Supervisor </div> Date: December 3, 1998
